

### **Inter-Mountain Basins Wash**

Barren and sparsely vegetated (generally <10% plant cover) restricted to intermittently-flooded streambeds and banks that are often lined with shrubs such as *Sarcobatus vermiculatus*, *Ericameria nauseosa*, *Fallugia paradoxa*, and/or *Artemisia cana ssp. cana*. *Grayia spinosa* may dominate in the Great Basin. Shrubs form a continuous or intermittent linear canopy in and along drainages but do not extend out into flats. Typically it includes patches of saltgrass meadow where water remains for the longest periods. S Desert scrub species (e.g., *Acacia greggii*, *Prosopis* spp.), are not present.
